CALL FOR PAPERS

The IAEE COP Symposium provides a unique opportunity to participate in the 2026 UN Climate Change Conference (COP31) as delegates will have accredited access to COP31, and be taken to the venue (Antalya Expo Center) on the first and last days of the symposium. The final wrap-up summary session of the IAEE COP Symposium will be held at COP31.

Alongside the IAEE COP Symposium and COP31, the 2026 Eurasian Energy & Sustainability Conference (EES5) will be held in Antalya at the same venue as the IAEE COP Symposium. Participants to the IAEE COP Symposium will get complimentary registration to EES5 and have the opportunity to attend both events.

Submit your abstract to present recent work and take advantage of the huge synergy between various conferences including COP31 and EES5 alongside the IAEE symposium. Publish in IAEE’s Economics of Energy & Environmental Policy Journal, which will produce a special COP issue based on selected papers from the IAEE symposium.

Last but not least: Antalya, Türkiye's Mediterranean vacation hub listed among the world’s top 10 tourism destinations, offers mild and pleasant weather in November ideal for sightseeing and swimming.

The IAEE COP Symposium organized by the Turkish Association for Energy Economics TRAEE marks IAEE’s first COP organization. TRAEE is Türkiye’s first NGO accredited by the UNFCCC secretariat in 2007 to attend the COP meetings as a research institution.

Economics of Energy & Environmental Policy (EEEP), an IAEE journal founded in 2012, is a policy-oriented, peer-reviewed publication bridging energy and environmental economics. EEEP will produce a special COP issue based on selected papers from the IAEE Symposium.

The Eurasian Energy and Sustainability Conference (EESC) is an annual event held in South Caucasian and Central Asian countries which have rich hydrocarbon, hydro, renewable and alternative energy resources and geopolitical advantages. The 5th EESC will be organized in Antalya this year together with the IAEE COP Symposium
